High-trajectory Shooting  
from the Gaza Strip and the Sinai Peninsula

In April 2017, one rocket was launched\* from the Sinai at Israel. In March, three rockets or mortar shells were launched from the Gaza Strip.

**\*Clarification:** The number of launchings is the number of rockets/mortar shells actually launched during one high-trajectory fire attack. For example: one attack may include a salvo of three launchings, that is, three rockets/mortar shells, and so it will be counted as one attack and three launchings.
